Forensic Meteorology & The Law: High-Impact Flooding Events

Wednesday, May 5, 2021

Noon to 1:30 p.m.
via ZOOM Webinar

Cost: \$30 Members
\$45 Non-Members
\$15 Paralegal
Free to Legal Services

Presenters: Alicia Wasula, Ph.D., a forensic meteorologist
President of [Shade Tree Meteorology, LLC](#)
Christopher K. Mills, Esq.
The Mills Law Firm LLP

1.5 MCLE: (1.0 Skills, 0.5 Prof. Practice)

We know fools rush in, but where does water go when it rushes in during flood conditions?

Don't be foolish -- take the guesswork out of grasping the science behind this fact of nature.
Know the facts and attend this informative webinar and help your clients understand their property's limitations & liabilities.

Appropriate for: Insurance Defense and Plaintiffs lawyers

Topics Covered:

- Prepping your case for a meteorological expert perspective
- Forensic Meteorology: A historical perspective
- Meteorology makes a difference: Case examples & Exhibit samples
- Data Sources: Learn how a meteorologist reconstructs past weather events
